

St. Teresa of Calcutta Health Policy

2020-2021

Any student with a fever greater than 100.4 degrees Fahrenheit (38 degrees Celsius) or displaying any COVID-19 symptom (see Appendix A of reopening plan) will be quarantined in a dignified manner in a designated location in the school building. Parents will be notified immediately to pick up their child. The student will NOT be permitted back to school until they are fever free and symptom-free for a period of 48 hours AND when the student has been cleared by a physician's note.

Any parent who keeps their child home because of 1 or more symptoms in Column A or 2 or more symptoms in Column B of the COVID-19 symptom checklist will follow the same protocols above.

All physician's note should be provided to the Main Office prior to the students return to school. They can be emailed to businessoffice@stck8school.org.
